

Clark Forklift Part

Clark Forklift Part - At this time, there are over 350,000 Clark lift trucks performing worldwide, and upwards of 250,000 in commission in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specific items intended for 20 distinctive models of forklifts and automated equipment. Your regional Clark Seller is your total source for availability of all your components requirements supplied by Clark Totalift.

Clark's phenomenal Parts Distribution Facilities are conveniently stationed in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Driven to offer the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to enhancing efficiency and benefiting performance.

Globally, Clark has one of the most amazing supplier support networks. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the materials handling market.

Clark proudly remains an innovative leader of the material handling industry, pioneering protection features such as the worker restraint system. This exceptional commitment to safety is currently a customary feature on every forklift.

Clark has a uncompromising mission to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its production facilities. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any number of environmental limitations, thus placing them in a prevailing market position.

Clark has chosen the system of "Lean Production" at all of its assembly plants because this system is extremely economical and allows for minimal use of resources. Established to ensure maximum efficiency, this system is designed to find and acknowledge the most effective ways for production facility stewardship. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to develop the effectiveness and brilliance of their products while minimizing expenses. The new value engineering agenda combines innovative product improvement and provides improved customer support and service within the industry.
